**Re: In the Matter of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

As a working teacher in the San Francisco Bay Area (with its extremely high cost of living) it is very important for me to be able to have choices to price compare as I shop for goods and services, such as broadband internet. Furthermore, it is my right as a citizen to have choices available to me through a competitive market. These choices become personally important to me in that they allow me to pay less for fiber services that are highly more efficient than the DSL services I've previously had with other major companies. With those companies, I have paid more for slower service and had to deal with poor customer service, inaccurate billing, and outages in my service. These have greatly impacted both my personal and professional time,

Claire Storm
